koo-institute](https://cchscr.memberclicks.net/koo-institute)

**Enrollment limited to
first 36 paid participants.**

Scholarships available!

KOO Workshop \$300/registration fee

The KOO workshop is designed for high school counselors with 5 years or less of college counseling experience. Learn more about topics from the experts: our faculty are top-notch, regionally and nationally known professionals who will share their extensive knowledge with you on an interactive and small-group basis. This three-day workshop will give you new resources and opportunities for networking.

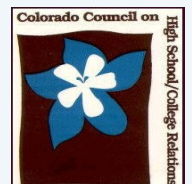

KOO participants will be asked to develop a list of resources that they find most useful in their college counseling work. We will create a shared resource library for all participants. Our faculty will provide help creating new ideas to improve your programming.

Workshop Agenda includes:

- Supporting students during the college transition when faced with mental health or discipline concerns
- CDE landscape, trends and updates of school counseling
- Creating a college going culture
- The School Profile/Letters of Recommendation
- Supporting DACA and underserved students
- Defining your role: college counselor/school counselor
- Financial Aid and Scholarships
- Meet and work with in-state and out-of-state colleges
- NCAA and preparing student athletes
- Letters of Recommendation

What is KOO?

It all started with a vision for helping counselors to better understand the college planning process. 30 years later KOO is still going strong guiding counselors to collaborate with colleges and learn the information they need to provide access to college for all students.
